

Outdoor trip in East-Bohemia

Date: 11-15 September 2022

Topic: Discover Eagle mountains & Dolní Morava

East Bohemia is an area with history and many natural and cultural monuments. There are mountains, dense forests and sport resorts where you can do all kinds of activities. The newest attraction of the area – and also in the Czech Republic – is the hanging bridge in Dolní Morava. At this moment the longest in the world. For outdoor lovers this region is awesome, but don't forget the beautiful castles and chateaux from ancient times.
